PETITION FOR FILING DATE UNDER 37 C.F.R. §1.53(b)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

1. The above-identified application was filed in the U.S. Patent and Trademark Office (USPTO) on July 8, 2003. The application was filed with a 21 page Japanese language specification including 8 claims, an Abstract and 9 pages of drawings. A date stamped USPTO receipt for filing of papers is attached as Exhibit A. The receipt lists the 21 page specification but fails to list the drawings. Nevertheless, a review of the electronic file wrapper shows that all the documents listed above were received by the USPTO on July 8, 2003.
2. The USPTO postcard acknowledgment of receipt indicates that the USPTO did not receive the specification, claims, Abstract and drawings. Exhibit B.
3. On July 30, 2003 the Applicant's representative contacted Ms. Delora Dillard to verify that all the documents were filed and that these documents were received by the USPTO. In addition, a facsimile letter was forwarded to Ms. Dillard. Exhibit C.

4. On December 1, 2003 Applicant's representative filed a Filing Receipt Status Request in the USPTO because the filing receipt had not been received. Exhibit D.
5. On June 14, 2004 Applicant's representative filed a Second Filing Receipt Status Request. Exhibit E
6. The Filing Receipt was received on July 28, 2004 indicated a filing date of January 20, 2004, the date Applicants filed a Preliminary Amendment with the English specification, claims, Abstract and formal drawings. Exhibit F.
7. A Second Request for Correction of Palm Records was filed on September 15, 2004 and indicated that the January 20, 2004 filing date was incorrect. Exhibit G.
8. A corrected Filing Receipt was received on September 21, 2004 and again indicated a filing date of January 20, 2004. Exhibit H.
9. A request for Correction of Palm Records was filed on October 12, 2004 and indicated that the January 20, 2004 filing date was incorrect. Exhibit I.
10. On October 22, 2004 a Response to Request for Corrected Filing Receipt was received and indicated that the filing date according to the application is the date the application met the filing date requirements of 37 C.F.R. §1.53(b) or (c). Exhibit J.

In view of the foregoing, it is respectfully submitted that this application was filed in the USPTO on July 8, 2003 and its receipt was acknowledged by the USPTO. Furthermore, a review of the electronic file wrapper shows that all documents necessary to receive a filing date of July 8, 2003 were received by the USPTO on July 8, 2003.

Any petition fee can be debited against Deposit Account No. 15-0461. However, it is respectfully submitted that any petition fee should be waived in view of the Patent Office error in incorrectly indicating the application papers were not received.

The USPTO is also requested to issue an official Filing Receipt bearing the filing date of July 8, 2003.

Respectfully submitted,

James A. Oliff

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

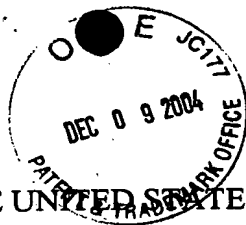

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
